Foxwood Hills Property Owners Association

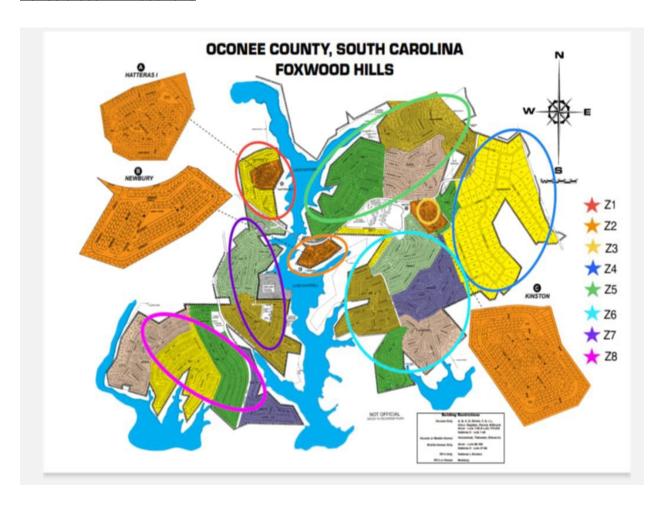

Security Report

October 2025

Summary:

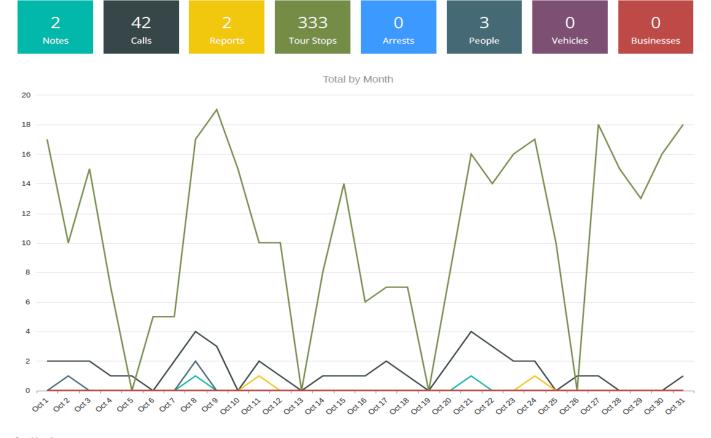

• FWHS is happy to announce that its newest officer, Jose Correa, is now full-time. He completed SLED Training on Saturday, Nov. 1, 2025, and should be fully certified by late December. FWHS continues to monitor the roadways to keep them open, clear and safe. In addition to normal operations, we are working with Code Enforcement to identify violations during routine patrol. Security is monitoring each land clearing/construction site and completing multiple daily property checks to ensure no worksite tools or equipment are stolen. FWHS also checks for squatters and vandalism and communicates with the office to contact the owner or project manager as needed.
